## Content Management Guide

Powered by Latz Web Design

# Getting Started

This guide covers how to edit and manage content on your website. If you get stuck at any point, reach out to Jordan directly at jordan@latzwebdesign.com.

> **Tip:**
> You can change any text, images, and content on your site. The layout and structure of the pages stays the same — this guide shows you exactly what you can update and how.

## Logging In

Your content management system (CMS) is where you edit everything on qolc.latzwebdesign.com. To access it:

1. Go to **qolc-coaching.sanity.studio**
2. Log in with the account you were invited with (Google, GitHub, or email/password).
3. You'll see the main editing screen with all your content organized in the left sidebar.

## The Two Tabs

At the top of your studio you'll see two tabs:

- **Edit Content** — Your main workspace. Browse and edit all content here. This is where you'll spend most of your time.
- **Live Preview** — See your actual website with changes updating as you type. Click on any element in the preview to jump directly to that field in the editor.

## Drafts vs. Published

Every change you make is saved as a draft automatically. Drafts are NOT visible on the live website — only you can see them in the studio.

To make changes live, click the **Publish** button at the bottom right of the editor. Changes will appear on the live site within about a minute.

You'll see an indicator next to content that has unpublished changes. This is your reminder that you have a draft waiting.

> **Tip:**
> Don't worry about breaking anything. Your drafts don't affect the live site until you hit Publish. Edit until it looks right, then publish.

## Working with Images

To add or change an image:

1. Click on the image field.
2. Click "Upload" to select a file from your computer, or drag and drop.
3. Set a hotspot by clicking on the image and dragging the circle to the most important part. This ensures the image crops well on all screen sizes.

- **Format** — Use JPG or PNG format.
- **File Size** — Keep file sizes under 2MB for best performance.
- **Hotspots** — Always set the hotspot on photos of people — put it on their face.

The system automatically optimizes images for fast loading.

## Publishing

1. Make your edits.
2. Use Live Preview if you want to see how things look.
3. Click “Publish” at the bottom right.
4. Wait about a minute, then check the live site. If changes don’t show, do a hard refresh (Ctrl+Shift+R on PC, Cmd+Shift+R on Mac).

# Your Content

Here's everything you can edit, organized the same way you see it in the sidebar. Your website is a single page with multiple sections. Each section in the sidebar corresponds to a part of the page visitors scroll through.

## Home Page

Your website is built as a single-page layout at qolc.latzwebdesign.com. In the sidebar, click "Home Page" to expand it, and you'll see all the individual sections you can edit:

### Navigation

Controls the navigation bar at the top of the site and the mobile slideout menu.

- **Nav Logo Icon (Small)** — The small Q.O.L.C icon that appears in the sticky navigation bar as visitors scroll.
- **Mobile Menu Logo** — The logo displayed when someone opens the mobile slideout menu.
- **Navigation Links** — The anchor links in the nav bar (About Me, Coaching, Biofield Tuning, FAQs, Schedule). Each link has a Label (what visitors see) and an Anchor ID (which section it scrolls to). The Anchor IDs are read-only — they're set to match your page sections. You can change the Label text.

## Hero

The large banner at the top of the page with the background image, your logo, and headline.

- **Background Image** — The full-width calming background photo. Set the hotspot so it crops well on mobile.
- **Hero Logo (Large)** — The full Q.O.L.C logo displayed prominently in the hero area.
- **Headline** — The main headline visitors see first (currently “Coaching for medical providers by a medical provider”).
- **Subheadline** — The text below the headline (currently “Navigate your unique path to a better Quality of Life”).
- **Credentials Line** — Your credentials displayed below the subheadline (e.g., “Elizabeth Mann, MSPAS, MPH, PA-C”).
- **CTA Button Text** — The main call-to-action button text (currently “Schedule”).

## What Brings You Here

The section with hook questions that resonate with your target audience, shown alongside an image.

- **Heading** — The section heading (currently “What brings you here today?”).
- **Section Image** — The image displayed beside the questions. Set the hotspot.
- **Hook Questions** — The list of questions that speak to potential clients. Each item is its own question. Add, remove, or reorder as needed.

## About QoLC Coaching

The section explaining what Quality of Life Coaching is and how it works.

- **Heading** — Section heading (currently “About Q.O.L.C”).
- **Subheading** — The first, larger paragraph that introduces the coaching philosophy.
- **Body Paragraphs** — Additional paragraphs of detail. Each item in the list becomes its own paragraph on the page. Add as many as needed.
- **Inclusivity Statement** — A standalone line displayed at the end (currently “All genders, ethnicities, and belief systems welcome.”).

## Coaching Services & Booking

The section displaying your coaching packages with pricing and booking links.

- **Section Heading** — The heading text for this section.
- **Subheading** — A brief description below the heading.
- **Section Image** — The image displayed alongside the coaching packages. Set the hotspot.

Coaching Packages — Each package is its own card with:

- **Package Title** — The name of the package (e.g., “Initial coaching consultation”).
- **Price** — The displayed price (e.g., “$300” or “$825”).
- **Features** — The checkmark bullet items listed on the card. Each item is a separate feature.
- **Button Text** — The text on the booking button (e.g., “Schedule a consultation”).
- **Button Link** — The Acuity scheduling URL the button links to.
-

> **Tip:**
> To reorder packages, drag and drop them in the list. To add a new package, click the “+” button.

## Biofield Tuning

The section explaining Biofield Tuning, with videos and session packages.

- **Section Heading** — The heading text (currently “Biofield Tuning”).
- **Body Paragraphs** — Explanatory paragraphs about Biofield Tuning. Each item is a separate paragraph.
- **YouTube Video URLs** — Embedded YouTube videos. Each has a Video Title and YouTube URL. Add, remove, or reorder as needed.
- **Session Heading** — The heading for the session details area (currently “Session details”).
- **Session Subheading** — Descriptive text below the session heading.
- **Session Bullet Points** — The list of session details (duration, format, recommendations, etc.).

Biofield Tuning Packages — Each package has:

- **Package Title** — The name (e.g., “Single session” or “3-session package”).
- **Price** — The displayed price (e.g., “$150”).
- **Button Text** — The booking button text.
- **Button Link** — The Acuity scheduling URL.

## About Elizabeth

The personal bio section about Elizabeth, including credentials.

- **Heading** — Section heading (currently “Guided by Elizabeth”).
- **Headshot Photo** — Elizabeth’s photo. This is optional — the design accommodates adding it later. Set the hotspot on her face when added.
- **Bio Paragraphs** — The biography text. Each item is a separate paragraph.

Pertinent Credentials — A list of credentials with:

- **Credential** — The credential name (e.g., “Certified Physician Assistant, NCCPA”).
- **Year/Range** — When it was earned or the active range (e.g., “2008–present”).

## FAQ

Frequently asked questions with expandable answers.

- **Section Heading** — The heading text for the FAQ section.

FAQ Items — Each item has:

- **Question** — The question text visitors see.
- **Answer** — The answer that expands when the question is clicked.

Add, remove, or reorder questions as needed. Drag and drop to change the order.

## Contact Form

The “Get in touch” section at the bottom of the page with the contact form.

- **Heading** — The section heading (currently “Get in touch”).
- **Description Paragraphs** — The text above the form. The first paragraph will display bold. Each item is a separate paragraph.
- **Submit Button Text** — The text on the form’s submit button.

## Footer

The footer at the very bottom of every page.

- **Footer Logo** — The Q.O.L.C logo in the footer.
- **Tagline** — The tagline text (currently “Woman Veteran owned and operated business”).
- **Location** — Your location text (currently “Located in South County, Rhode Island, USA”).
- **Disclaimer** — The disclaimer text (currently about coaching not being medical diagnosis or treatment).

# Form Submissions

Contact form submissions from the website appear here. These are read-only — you can view them in the studio, but the main notifications come through email. They're sorted by most recent first.

Each submission shows the visitor's name, email, phone number, message, and when it was submitted.

# Quick Tips

- **Always publish when you're done** — Drafts don't show on the live site.
- **Set hotspots on all images** — Especially photos of people — put the hotspot on their face.
- **Keep text concise** — Your website is built to convert visitors into clients. Short, clear messaging works best.
- **Don't leave fields empty** — Blank fields can create awkward gaps on the site.
- **Changes take about a minute** — After publishing, give it a moment. If changes don't show, try a hard refresh (Ctrl+Shift+R or Cmd+Shift+R).
- **Paragraphs are list items** — Many sections use a list of paragraphs. Each item in the list becomes its own paragraph on the page. Add a new item for a new paragraph — don't use line breaks within one item.
- **Drag to reorder** — Any list (FAQ items, packages, questions, credentials) can be reordered by dragging and dropping.

> **Tip:**
> You can change any words, images, questions, pricing, credentials, and more. The page layout stays the same, but all the content inside is yours to update whenever you want.

# Need Help?

If you get stuck or something doesn't look right, reach out directly:

**Email:** jordan@latzwebdesign.com

**Website:** latzwebdesign.com

You can also click "Latz Web Design" in the footer of your studio to copy the email address.

**No bots. No tickets. You talk to me directly.**
